This key information document is accurate as of 1st January 2023.

What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of BIL Invest, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However, the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

Principal assets traded

Equities, bonds, money market instruments issued by all types of issuers on the global markets, through investment Funds and/or derivatives.

Investment strategy

The Fund of Funds seeks to achieve capital growth over the recommended investment period through diversified investment, prioritising net exposure to equities.

Within the limits of the Fund's investment objective and policy, the management team makes discretionary investment choices in the portfolio based on analyses of the characteristics and growth prospects of the assets traded and mathematical models.

Net exposure to equities is generally the majority and may be up to 100%. However, based on the manager's expectations as regards financial market trends, investments in equities may be sharply cut back without ever falling under the 25% threshold.

Thus, the Fund may temporarily invest primarily in money market assets and/or bonds through Funds and/or derivative products, and/or hold the assets in deposits and/or current accounts without however exceeding the threshold of 75% of net assets.

The Fund may use derivative products both for investment and hedging purposes (hedging against unfavourable future financial events).

The Sub-Fund is not an index compartment and will be actively managed.

ESG Criteria

The Compartment does not have a benchmark, the environmental and/or social characteristics result from the environmental and/or social characteristics of the underlying investments that comply with Article 8 or Article 9 of Regulation (EU) 2019/2088. The contribution of each investment to the Sub-Fund's overall ESG score is taken into account before investment, a score defined by an internally developed methodology.

The Sub-Fund integrates sustainability factors in its investment process, by considering an eligible universe of the Sub-Fund, including UCIs that comply with Article 8 or Article 9 of Regulation (EU) 2019/2088 and having a minimum required ESG score based on internal methodology. The selection is supplemented by the review of exclusion and inclusion criteria applied by the underlings UCIs. The Sub-Fund may also invest on an ancillary basis, up to 15% of its assets, in UCIs that are not complying with Article 8 or Article 9 of Regulation (EU) 2019/2088 that integrate sustainability risk into their risk management process, as well as directly through investments in equities and bonds.

Further information on the Management Company's ESG/Sustainability policy is available upon request or at the Management Company website – www.bilmanageinvest.lu.

Redemption of shares

On request, every day, in Luxembourg.

Other information

This Class is cumulative. Dividend distributions are not planned.

The return of the product is determined by using the net asset value calculated by the Central Administration. This return depends mainly on the market value fluctuations of the underlying investments.

The Sub-Fund's assets are segregated from assets of other Sub-Funds of the Fund. The assets of the Sub-Fund cannot be used to pay debts of other Sub-Funds.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	5 years EUR 10 000		
	If you exit after 1 year	If you exit after 5 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	EUR 6 470	EUR 3 720
	Average return each year	-35.3%	-17.9%
Unfavourable scenario	What you might get back after costs	EUR 8 170	EUR 8 170
	Average return each year	-18.3%	-4.0%
Moderate scenario	What you might get back after costs	EUR 10 050	EUR 11 270
	Average return each year	0.5%	2.4%
Favourable scenario	What you might get back after costs	EUR 12 390	EUR 14 060
	Average return each year	23.9%	7.1%

The stress scenario shows what you might get back in extreme market circumstances.

What happens if BIL Manage Invest S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with RBC Investor Services Bank S.A. and are segregated from the assets of other Sub-Funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other Sub-Funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

Investment of EUR 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 535	EUR 1 504
Annual cost impact (*)	5.4%	2.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.0% before costs and 2.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.50% of the amount you pay in when entering this Investment.	Up to EUR 350
